OUR STORY

In early 2021, we lost our sweet friend, Megan, to a terminal brain tumor (glioblastoma) at just 35 years old. She was literal sunshine in human form. After her passing, we recognized a need to continue to shine her light into the world. Megan's Miracles offers scholarship to other bright lights in the world and financial assistance to others who are facing similar hardships. By joining us, you are helping be the light.
